Manufacturing:

China (Wholly Owned, ISO 9001 & 14001)
Partners: Malaysia, Thailand

Core Values

Integrity

We conduct our business with honesty and uphold the highest ethical standards, building trust with our stakeholders.

Innovation

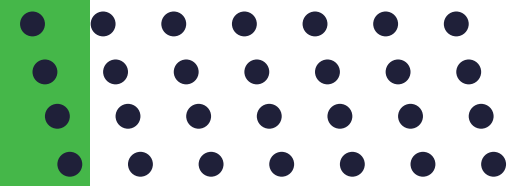

We embrace creativity and innovation, continuously improving our processes, products, and services to stay ahead of the curve.

Customer-Centricity

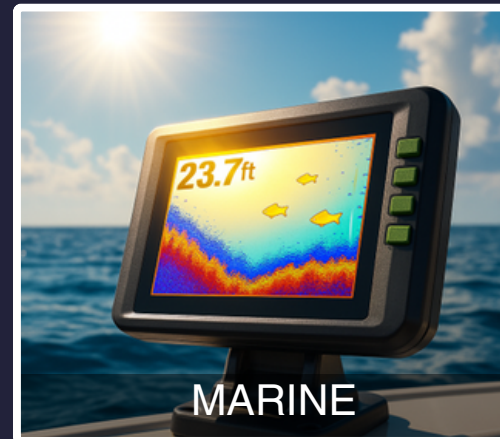

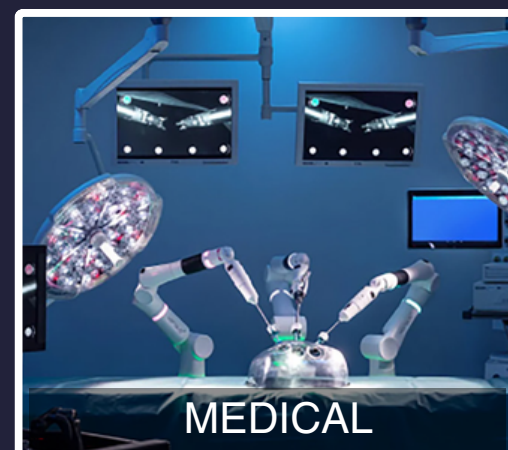

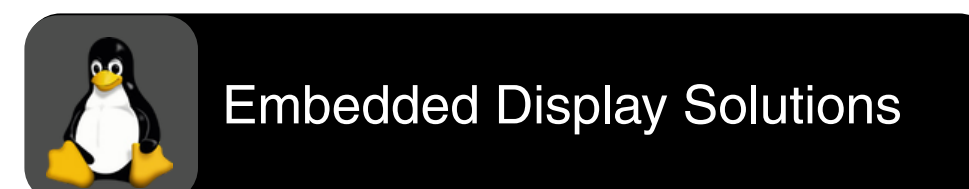

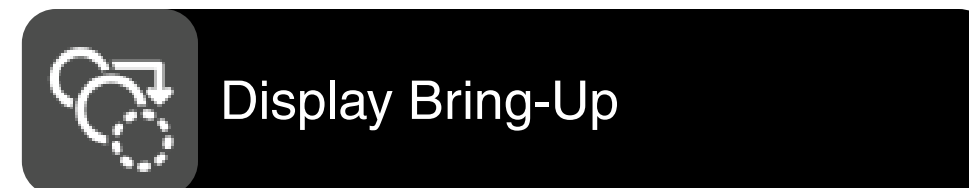

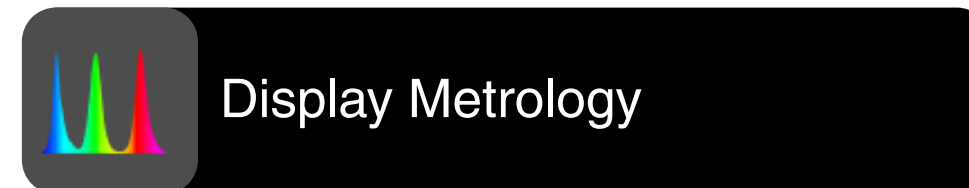

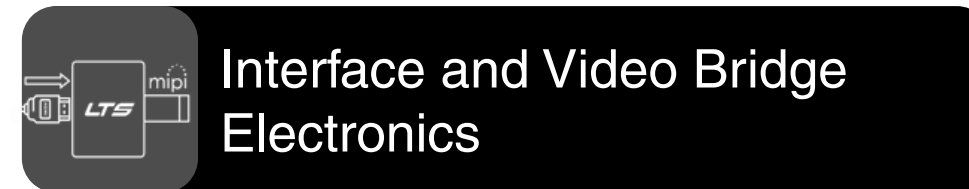

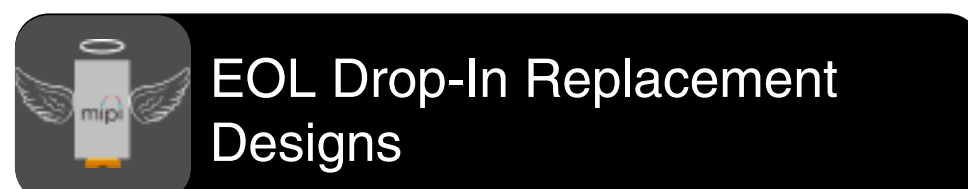

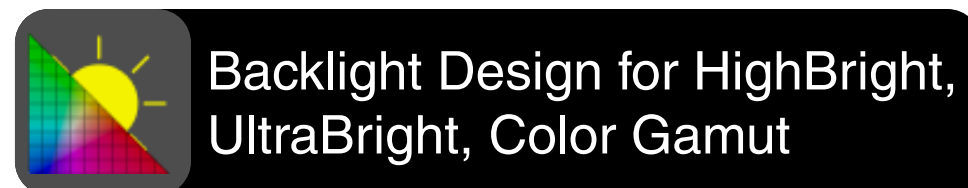

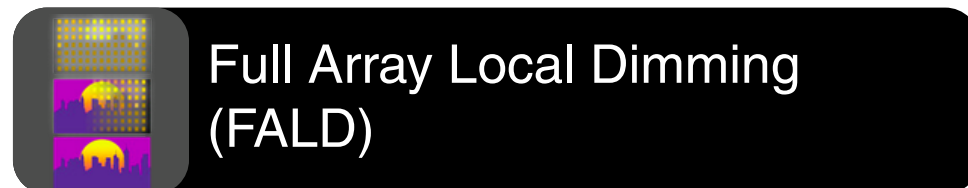

Our customers are at the heart of everything we do, and we strive to exceed their expectations through exceptional service and value.

WHAT WE DO

Custom Design and Manufacturing Services

WHAT WE OFFER

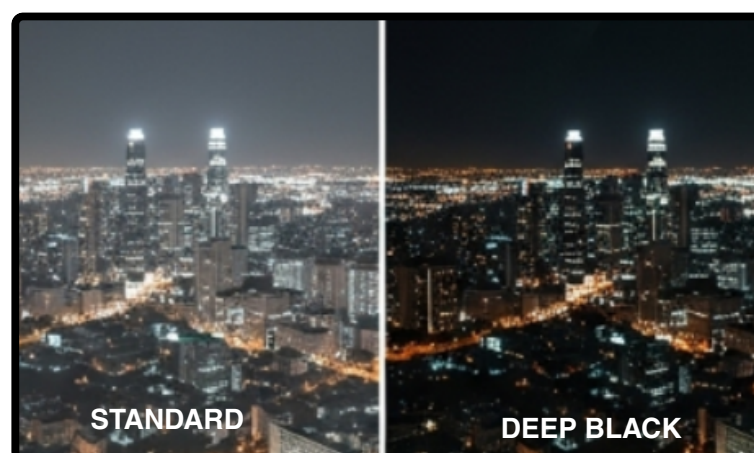

Displays as Unique as Your needs

Full Product Lineup

OLED

- Infinite Contrast Ratio
- Fast Response Time
- Ultra-thin & Lightweight
- Industrial Grade 4K, 10 Bit
- De-burn-in Algorithm

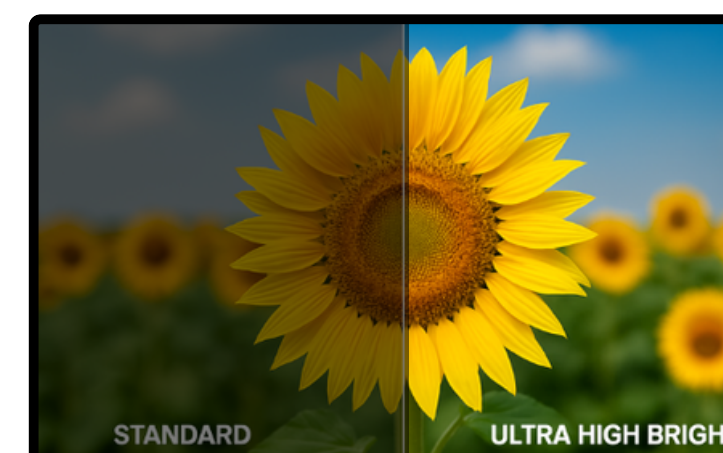

LCD

- Ultra High Brightness
- Wide Color Gamut
- Cost Effective
- Resolutions up to 4K
- Long Lifespan

LCD-Rugged

- Vibration and Shock Resistance
- High Impact Durability
- Ingress Protection
- Op Temp -30°C to +85°C
- UV/Solar Tolerance

Mini-LED

- Exceptional Contrast
- Deep Black, Vivid White
- Single LED per Zone Control
- Power Saving Up to 85% APL
- Reduced Halo Effect

Standard Samples & Kits Available

WHY CHOOSE US

Your Competitive Edge Starts with the “RIGHT” Display Partner

■ We Solve Hard Problems

From simple to complex, we take it all — and we thrive on the challenging display projects others avoid.

■ Speed to Prototype, Speed to Market

Our in-house electromechanical prototyping & validation capabilities help you significantly reduce time to market.

■ Customization Without High MOQ Barriers

Tailored solutions accessible to emerging OEMs and global brands alike.

■ Industry Insight & Application Expertise

We understand the environment, use case, optics, and human-machine interaction behind every display.

■ Innovation Centered, Customer Focused

Mini-LED, next-gen OLED, embedded display solutions — our roadmap evolves with market demand.
